“I love coming to work and listening to [patient] stories and working with them to achieve better health.”

About Belisa Guzman-Suarez,

Dr. Belisa Guzman-Suarez, MD is the Regional Medical Director for IntuneHealth. She hopes that IntuneHealth’s unique approach translates into more happy moments and memories for patients. Dr. Guzman-Suarez is also a firm believer in taking the time to be available to patients and truly listen to them.

“I love to learn who the person is behind the patient,” she says. “For me it is a true honor to establish a relationship with my patients and to get to know them well. My patients know they can trust me in moments of need.”

In her free time, Dr. Guzman-Suarez likes to spend time with her husband and three children by relaxing at the beach, visiting Disney World, or dancing together at home.
